Ramadan in Istanbul

There are several key points about the purpose of fasting during Ramadan, which Muslims also call "the month of caring and sharing." Staying hungry and thirsty for hours during the day is a powerful reminder of the millions of less fortunate people in the world.

E A S T E R E G G S

An egg is a symbol of new life. For Christians, Easter eggs are used as a symbol of the resurrection of Jesus.

Christians believe that, through his resurrection, Jesus overcame death and sin. This offers people the promise of eternal life if they follow his teachings.

Nowadays, most Easter eggs are made from chocolate and covered in colored foil. Traditionally though, chicken eggs would be hard-boiled and then decorated by hand. Traditional Easter egg hunts remain popular.

Istanbul Tulip Festival

During April, you can spot these glorious spring flowers everywhere in Istanbul. But for a real tulip treat and the International Istanbul Tulip Festival, you have to head to Emirgan Park. It is one of the largest public parks in Istanbul and has several tulip gardens. Emirgan Park is located by the Bosphorus in Sariyer, which is a little bit past the second Bosphorus Bridge.

Bringing the joy of spring to Istanbul, tulips take Istanbulites on a colorful journey all over the city. Especially the tulips planted in Sultanahmet Square and Emirgan Grove are flooded with visitors from many parts of Turkey. These tulips, which adorn the Emirgan Grove from 1 to 30 April every year, are definitely worth seeing. Shapes made from tulips transform Emirgan Park into a flower paradise.

Teams of gardeners will have planted millions of tulips citywide, throughout parks and public spaces. During the festival you'll find them in full bloom, inviting you to wander. The park authorities will put on performances, concerts, and exhibitions to accompany them.
