# Indispensable taste of winter: Salep

Do you know this special drink? You can start to smell the taste of this marvelous drink even from meters...

You will be able to find it also in other seasons but in winter, it tastes almost three times better than the rest of the year. You can grab the cup tightly and warm your hands up, and you can get the same warmth inside with each sip from the delicious drink.

Salep has a dense consistency. It doesn't feel like any other drink; you almost feel like you are eating something sweet but drinking at the same time. With some cinnamon on top of it, it will take its taste even higher. This way, it will also be a healthier drink. You should try Salep at least once in your life.
